

The following is the **Highway Schedule for the week of October 5th – 9th.**

Please take note of changes in hours of operation, area of construction, and affected facilities.

NEW HOURS OF OPERATION: Monday - Thursday 7:00AM - 7:00PM, Friday 7:00AM – 6:00PM.
No night or weekend work other than for dust control.

PROJECT FOCUS AND DELAY SCHEDULE FOR THIS WEEK:

1. One mile north of Halstead Meadow to just north of the Wolverton Road intersection: Expect a 6-mile escort through the construction zone. To accommodate traffic flow, at times the pilot car escort locations may be reduced to less than 6 miles, however this is tentative and random. Please note there may be traffic control at the Wolverton Road intersection to accommodate construction truck traffic during final paving operations south of Lodgepole Village intersection.

Delay Schedule:

One-hour delays 8 AM to 4PM: Pass-through from both directions of travel at top of the hour.

Half-hour delays 7:00AM to 7:30AM and 4:30PM to 7:00PM: Pass-through from both directions of travel on the hour and the half hour. In addition to the Generals Highway traffic-control stations, there will be flaggers stationed on the Generals Highway at the Lodgepole Village intersection and Wuksachi Road intersection. The Red Fir Maintenance and sprayfield intersections as well as Clover Creek Waste Water Treatment Plant intersection will be under traffic-control restrictions posted "Wait For Pilot Car." Delays will be a maximum of one hour with traffic flowing from the two main traffic-control points at the top of the hour; cars on side roads may pass with the last car of the main traffic queue, per respective direction of travel.

2. Wuksachi Road

Pulverization of Wuksachi Road pavement is tentatively scheduled to begin mid-week. Traffic control will be in place; however, a specific traffic plan has not been finalized. When a traffic plan has been finalized early next week, a special announcement will be sent out.

Please note:

- Pulverizing will continue this week, once again resulting in areas of unpaved roadway signed accordingly. Travelers, especially motorcycle and bicycle riders, need to be cautious on these sections.
- During this construction period, the Lodgepole Picnic Area and Clover Creek pullout will be closed for public use until further notice.
- Employees and visitors using side access roads between the Red Fir Maintenance facility and Wolverton intersection need to adjust their travel into and out of the respective areas to coincide with the traffic-delay schedule.
- Intersections off of the Generals Highway may experience increased congestion. Flaggers are working to accommodate traffic moving in both directions. Please use extra caution and expect slowing traffic in these areas.

In addition to the Federal Highway Generals Highway project, the park road crew will be performing road repair work along the Generals Highway between the **Quail Flat and Highway 180 intersections** this week. Delays will be minimal, averaging 5 minutes between pilot-car escort. Hours of operation 7:30 AM to 5:00 PM.
